Resolved, We, members of the Mayor's Rent Adjustment Commission of New Jersey and citizens of the State assembled in mass meeting in Newark, N. J., respectfully request Hon. Commissioner Monahan: I want to bring up a little matter here regarding Centre Market. You all know the condition the Centre Market has been in for many years, and no doubt you all know the necessity for building a new market which will be sanitary in every respect. With your approval, I would like to go ahead with the building of a new market. I am continually getting complaints from Dr. Craster regarding the sanitary condition of

Centre Market. I would like to have the clerk read the last two letters I received from him.

City of Newark,
Department of Health,

August 20, 1920.

To Hon. John F. Monahan, Commissioner, Department of Parks and Public Properties, City Hall, City.

From Dr. Charles V. Craster, Health Officer.

Subject, "Men's Water Closets in the Centre Market."

Dear Sir:

I wish to call your attention to the following report brought to this office by our District Inspector, Mr. Edward Cleary:

The water closets in the men's compartment in the Centre Market are obstructed, causing the bowls to be in a filthy and unsanitary condition.

Will you kindly give the above matter your early attention, and oblige,

Yours very truly,

CHARLES V. CRASTER,
M. D., D. P. H.
Health Officer.

City of Newark,
Department of Health,

August 30th, 1920.

To Hon. John F. Monahan, Commissioner, Department of Parks and Public Properties, City Hall, City.

From Dr. Charles V. Craster, Health Officer.

Subject, "Result of an Investigation Made Under the Centre Market Building."

Dear Sir:

I wish to call your attention to an investigation made under the Centre Market building on Tuesday, August 24th, 1920, which resulted in finding the following conditions:

North side, going from Mulberry Street to Broad Street—Holes have been bored in the cement flooring, allowing waste paper to run into the canal underneath said market. Five holes east of first drain, one between first and second drains, five between second and third drains, two between third and fourth drains, the third drain is defective and the fourth drain and fifth drain are disconnected. The flooring at fourth and fifth drains is defective.

South side, going from Broad Street to Mulberry Street east—The following holes were found in the cement flooring: One at second drain, one east of third drain, one west of fourth drain, and two east of fourth drain, one east of fifth drain. The first drain is defective and water supply faucet causing water to run continually underneath stand No. 24 in the vegetable market. The windows on the north side are not screened, allowing garbage and rubbish to enter into the water of the canal.

Will you kindly give the above matters your early attention, and oblige,

Yours very truly,

CHARLES V. CRASTER,
M. D., D. P. H.,
Health Officer.

Commissioner Monahan: We are continually spending money on that old market and you can never get it in a sanitary condition. It has outlived its usefulness. If you authorize me to go ahead with the building of a new market, either one on the present site, or some other site, I will guarantee you it would pay for itself in a very short time. I figure the building of a new market at the present time would cost in the neighborhood of a million and a half dollars, and that the city would make a net profit of from \$50,000 to \$60,000 a year. I have also received a petition from the wholesale produce dealers on Commerce Street asking us to build a wholesale market for them down around the old alms house site, where there is a railroad siding. That petition is signed by at least 80 per cent. of the commission merchants on Commerce street. It seems to me that we ought to find out the sentiment of the public on this important matter—find out where the market should be located. In my opinion, the present site is the only place for an up-to-date sanitary market.

Commissioner Monahan was requested to take this matter up with the Executive Committee of the Zoning Commission for the purpose of making a study of the city planning and report back his findings to the Commission.

Commissioner Brennan moved to adjourn.

State of New Jersey,
Passaic Valley Sewerage
Commissioners.

Newark, September 7, 1920.
Hon. Mayor and
Board of Commissioners,
City of Newark, N. J.

Gentlemen:

At the direction of the Passaic Valley Sewerage Commissioners, I am

sending you herewith enclosed pamphlet containing communication to municipalities with copies of resolution of June 6, 1920, report of Chief Engineer, June 28, 1920, and proposed form of supplemental contract, together with a form of resolution for consideration, assenting to the entrance into the Passaic Valley Sewer of the Town of Montclair.

The Commissioners would appreciate your prompt consideration of this matter.

Yours very truly,

J. H. QUIGG, Secretary.

Ordered referred to the Director of Streets and Public Improvements.

Commissioner Raymond: I would like to make a statement if I may. I think we should not enter into a new contract with the Passaic Valley Sewerage Commissioners until we have had a conference. I invited the representatives of the municipalities to meet here, and am inviting you gentlemen also to meet here on September 22nd to consider the recommendations in this report. If the recommendations in this report can be followed, we can put this sewer in and begin possibly next year, save a great deal of money and not go ahead with the extensive extension of the sewer out to the bay at present. I think this whole subject should be taken up with the Passaic Valley Sewerage Commissioners before we undertake to enter into a new contract. I think you will find the report not only interesting to read, but I think you

will find the recommendations are very valuable from our standpoint.

Yeas: — Commissioners Archibald, Monahan, Raymond, Mayor Gillen.

Mayor Gillen: Gentlemen, regarding this nuisance in Irvington, the Attorney General has rendered an opinion that the only way to abate it is to proceed in the Court of Chancery, and I think, inasmuch as it affects the health of a great many citizens and a great deal of property of citizens of this city, that the city itself should proceed. This is the nuisance created by the International Coal Products Company, and I think the city Law Department ought to proceed.

Commissioner Raymond: They told me they are satisfied with the conditions up there now, and the Welfare Association has expressed its satisfaction of conditions. There does not seem to be anything else to do.

Mayor Gillen: I received a set of resolutions from the Welfare Association this week in which they asked that the city proceed against these factories.

Commissioner Raymond: Mr. Van Duyne, what was done by these factories?

Mr. Van Duyne: They have followed out the suggestions that have been made in reference to eliminating these odors. I went there the other day at the Director's suggestion with two members of the Welfare Association of that locality, Alderman Littlefield and Mr. Lehman, and Mr. Woodell, who is General Manager, made statements in reference to what the company was going to do and set the time for the carrying out of these suggested improvements. I saw Mr. Lehman yesterday morning, and he stated all the suggestions made in reference to eliminating the nuisances had been carried out and that the entire locality noticed a very great change in the odors that emanate from the plant and were very well pleased with the situation as it has now developed.

Mayor Gillen: If that is the case, there will be no need of presenting this resolution.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: — Commissioners Archibald, Brennan, Monahan, Raymond, Mayor Gillen.

Commissioner Raymond: Mr. Mayor, I would like to make a statement in regard to this resolution which is now before us. I appeared before the Board of Commerce and Navigation on Monday last with Mr. Sherrerd and Mr. Congleton, and we presented every argument which we could think of to the board in order that we might get this property cheap—these rights cheap—or may be for nothing, but the board announced that the City of Jersey City had purchased its dock frontage—its riparian rights for \$75 a foot. The matter had been accomplished and a fixed price of \$75 a foot for bay frontage set. They felt they had no power to change that price and the only thing they could do would be to give us some terms in the form of lease-hold rights. They made us an offer of \$50 a foot for lease-hold rights, subject to revision from time to time as the riparian lands became more valuable. We could not expect the board to give us these lands for less than they gave them to Jersey City, just across the river, and I would recommend to this Commission the purchase of these rights. \$50 rental for each foot would be ridiculous. We

were not prepared to spend that amount. This will cost us about \$104,000. I think the only thing to do is to purchase the rights at the price they fixed.

Whereas, Under and by virtue of the provisions of an Act entitled "An Act to enable cities of the first class to regulate and limit the height and bulk of buildings, to regulate and determine the area of yards, courts and other open spaces and to regulate and restrict the location of trades and industries," approved March 19, 1917, and the various supplements thereto and amendments thereof, the Board of Commissioners was authorized to appoint a commission, to be known as "The Commission on Building Districts and Restrictions;" and

Whereas, Since the appointment of the members to such Commission the resignation of Christian W. Feigenspan as a member there of has been received and accepted by this board, leaving a vacancy thereon; and

Whereas, Charles G. Titsworth has been suggested to fill the vacancy occurring by the resignation of said Christian W. Feigenspan; therefore, be it

Resolved by the Board of Commissioners of The City of Newark, That Charles G. Titsworth be and he is hereby appointed a member of such board to fill the unexpired term of the said Christian W. Feigenspan, such appointment to take effect on the passage of this resolution:

The roll being called, the resolution was declared adopted by the following votes:

Yeas: — Commissioners Archibald, Brennan, Monahan, Raymond.

Nays: — Mayor Gillen.

Mayor Gillen offered the following resolution:

Whereas, The State Civil Service Commission, under and by virtue of the powers vested in it by Chapter 54 of the Laws of 1918, acting in conjunction with a committee designated by this board, has made a classification and suggested standards of salaries or wages to be paid the officers and employes filling offices, positions and employments in the classified civil service of the City, and has now submitted to this board its report, in writing; and

Whereas, This board has considered the same and is of the opinion that the adoption of said report will be for the best interests of the city in the administration of its affairs and in the interest of fair and just treatment of all city employees, based on the character of service performed; therefore be it

Resolved by the Board of Commissioners of the City of Newark, That the classification of the offices, positions and employments in the classified civil service of the city, as set forth in said report, be and the same are hereby adopted; and be it further

Resolved, That the suggested standards of salary or wage range for the various grades to be paid officers and employes filling offices, positions and employments in the classified civil service of the City, as set forth in said report, be and the same are hereby fixed and determined as the salary or wage range for the respective grades, as set forth in said report, and the same are hereby adopted; and be it further

Resolved, That the regulations proposed in the said report governing the

procedure in the administration of the classification plan be and the same are hereby adopted; and be it further

Resolved, That the adoption of the classifications and the salary standards, as hereby fixed, shall not be construed to nullify or abolish any office, position or employment of any officer or employee or in any way to alter or affect the rights or legal status of the officers or employes filling positions or offices as aforesaid, nor shall the adoption hereof alter or affect the salaries of the present incumbents of the offices or positions so re-arranged.

Charles P. Gillen,
William J. Brennan,
Thomas L. Raymond,
A. Archibald,
John F. Monahan.

City Clerk Egan: This will take certain powers away from this Commission under the law.

City Counsel Congleton: It does not change it from the present law. What you have done by this standardization you have fixed ranges in which all clerks are and they are automatically increased until they reach the maximum. When they get that it is then between the two boards, this Commission and the Civil Service Commission.

City Clerk Egan: My impression is, if this resolution is adopted as submitted now, it means the Civil Service Commission will tell you the maximum amount or sliding scale of advance you can give, which means not more than a \$10 per month increase per year. If you have a man you feel worth more of an increase than that, you cannot give it to him unless they say it is proper.

City Counsel Congleton: I do not quite agree with the City Clerk. It is my understanding you can increase between the ranges until the maximum is reached. For instance, if you have put a man in a grade where his salary is between \$2,000 and \$2,500, you may increase him within that range what you see fit, except when he is to start out, when you would have to start him on the minimum and not the maximum, which is in all fairness to older employes, but if you want to bring his salary to more than \$2,500, you would have to take it up with the Civil Service Commission and show there has been an increase in the duties or responsibility you have placed upon him. That man would be treated as obtaining a promotion and he would have to take an examination to get into a higher grade.

City Clerk Egan: The thing I want to bring to your attention is, in my mind, this paragraph will further reduce the powers you gentlemen will have as Commissioners and make the Civil Service Commission the Supreme Court, so to speak, in the matter of salaries. They are now to a certain extent, but this gives them more power.

Commissioner Archibald moved that the resolution be laid over.

The roll being called, the motion was declared adopted by the following votes:

Yeas: — Commissioners Archibald, Brennan, Monahan, Raymond, Mayor Gillen.

Mr. Frederick C. Ritger, 790 Broad Street, Newark, appeared before the board in reference to the celebration of Columbus Day, and stated he was

the representative of a special committee appointed to wait upon the Mayor to request that this committee be given charge of the celebration, and that if this were not possible to ask the Mayor to allow this committee to offer suggestions in the celebration of this day.

Mayor Gillen: We would be very glad to co-operate with you. I have already discussed the matter with some men who acted on the committee last year. The arrangements are not complete. We will be very glad to meet with you at any time.

Mayor Gillen: I have a matter I would like to bring up, gentlemen, and that is the reservoir in Branch Brook Park. The Water Department does not require the water and there is nothing in the city we need more than an outdoor swimming pool. I think it would maintain itself once it got in operation.

Commissioner Raymond: Some time ago I brought in an estimate of the cost to make a swimming pool of this, but at that time it was found the cost would be too high.

Mayor Gillen: I thought by dumping ashes in there during the year, between now and summer, we could bring it to a lower depth. We could then use the old pumping station in connection with it for a dressing room and games.

Commissioner Raymond: I have had a wrangle with the Park Commission and I am glad it came up. They want us to sell them the land and I do not think we should sell that land except for a very substantial sum of money. We found it necessary to lay pipe across Weequahic Park and the Park

Commission held up the granting of that privilege to us with the idea they could compel us to sell them this land. Mr. Costello, would it be feasible to dump ashes there until you got the necessary depth?

Mr. Costello: Yes, sir; even if we had to build a runway in there, it would pay us to do it.

American Institute of Weights and Measures

115 Broadway, New York.

September 28, 1920.

The President of the City Council,
Newark, New Jersey.

Dear Sir:

For some time a persistent agitation has been going on with the object of inducing Congress to pass laws for the compulsory use of the "Metric System" for weights and measures in this country.

Changing from our established system of measurements to the "Metric System" is a matter which profoundly affects not only the vast business interests, but also the habits of every individual, and should be very carefully considered.

This letter is written with the object of calling your attention to the importance of this subject. Please note the enclosed leaflet giving resolutions passed by representative bodies.

If those who are advocating this revolutionary doctrine of changing our weights and measures have approached you on this question, we would suggest that you should express yourself as **OPPOSED TO ANY CHANGE**. This Institute can be of material assistance to you in obtaining a comprehensive idea of what such a change would mean.

Will you kindly call on us relative to the presentation of a favorable resolution to your Council?

Respectfully yours,

AMERICAN INSTITUTE OF
WEIGHTS AND MEASURES.

C. C. Stutz, Secretary.

Ordered referred to the Director of

Department of Public Affairs
Mayor's Office
Bayonne, N. J.

September 25, 1920.

Board of Commissioners.

Gentlemen:

The City of Bayonne has received information to the effect that application is to be made to the Federal Authorities permitting the emptying of sewerage from the Passaic Valley Trunk Sewer into the Newark Bay as a temporary expedient instead of waiting until construction of the sewer is completed so that the same might be emptied into the New York Bay, as first contemplated.

As soon as this matter came to the attention of our Board of Commissioners, Engineers were consulted for the purpose of ascertaining the probable effect upon this city, and we are satisfied from the report of such Engineers that the tides of the Newark Bay will not be sufficient to carry away such sewerage, but that the same will be thrown upon our shores and will accumulate in the shallow water on the west shore of Bayonne to such an extent that it will considerably affect that portion of the city, and possibly the entire city, in so far as it is used for residential purposes.

The Newark Bay shore is the site of two parks which are frequented by thousands of our residents, a great many of whom frequent the same for the purpose of bathing in Newark Bay, and we are advised by our Engineers that if this sewer is allowed to empty into Newark Bay that within a very short time it will be impossible to use the bathing beaches because of the

danger to the health of persons who might desire to use the same, and that the parks would have to be closed because of the danger to the health of persons who might visit the same.

We are satisfied that if the course suggested is pursued, that the City of Bayonne will be unfit for residential purposes and that the health of our residents will be dangerously affected and with that thought in mind, our Board has adopted a resolution protesting against any action which may be taken to have the sewer emptied into Newark Bay, a copy of which resolution I am enclosing herewith.

Very truly yours,

ALFRED BRENNER,
City Attorney.
